- 1x User Manual
- 1 × USB-C data cable
- or
- 1xUSB to Type-C adapter

FAQ

- 1: What is the WiFi password for the Wireless Carplay Adapter?

we need to connect the bluetooth,not Wi-Fi.After Bluetooth matching is successful,WiFi will automatically connect.
So no need Wi-Fi password.Make sure your Wi-Fi is turned on and unoccupied when pairing.

FAQ

- 2:** After pairing Android Auto adapter, can not start Android Auto function or compatible/ can not recognize the USB...
- 1) If your car use the android auto function for the first time, please use your data cable to connect your phone to activate android auto through a wired method.
 - 2) Please make sure that android auto on your android phone is the latest version. If not, please update to the latest version.
 - 3) Please turn off the Bluetooth of your phone and enter the mobile application management to search auto to clear the auto cache from google play service. After the cleaning is completed, Restart the adapter and reconnect to Bluetooth.
- 3:** Audio input or output issues : calls rejected or forwarded to voicemail/ no play sound /microphone not working /music playback interrupted or paused /voice functioning abnormally..

FAQ

- 1) Please check if the iPhone/Android smartphone's Bluetooth connects to other devices such as Earphone, watch.....If so, please disconnect other auto-connected Bluetooth devices.
- 2) When on a call, check that your "Audio" output option is Carplay/Android Auto.

4: The indicator light of the adapter is still on after the car is turned off.

Because the car does not cut off all power immediately when it is turned off, the adapter's light will not go out immediately, but it will take a while. Please rest assured that its power consumption is minimal and will not drain the car battery.

5: When using the wireless Carplay Android Auto Adapter, whether the mobile phone can use other internet Wi-Fi.

FAQ

When enjoying the wireless android auto adapter function, the phone's WiFi will be occupied by the adapter, So you can not use other internet at the same time, You only can use your phone SIM card internet.

6: Unable to automatically reconnect.

- 1) Please make sure that the Bluetooth and WiFi functions of your mobile phone are turned on and the Bluetooth is not occupied when you get in the car.
- 2) Clear the pairing record , restart the phone and repair the Adapter again.

7:Can the adapter be paired with multiple phones?

The adapter can be paired with maximum five phones, but only one device can be connected at a time if you would like to pair it with a new phone , please cancel the current connection first. Please note, by Bluetooth function default ,the adapter's system will only auto-connect back to the last used phone.

8: Can't find the bluetooth and Wi-Fi of the wireless Carplay Android Auto Adapter ?

Please make sure wireless Carplay Android auto adapter power indicates blue light is on and Be sure plug the adapter into the port that is for wired carplay/ Android auto.

If convenient , Please test it with another Phone. If only a specific phone cannot find the Bluetooth or Wi-Fi of the adapter please try to reset the network and bluetooth settings of this Phone and then restart the phone once , if the same problem happens on other Phone , It will be defective, please let us know.

9: The Red indicator light of the adapter is blinking all the time. (The normal working light should be red light on)

- 1) Pls make sure you insert fully to USB port.
- 2) If insert fully, pls get male female USB adapter to have a try.

10: Whether Wireless Carplay Android auto Adapter support Youtube Video?

- 1) Can not support Youtube for wireless carplay.
- 2) Can support Youtube for wireless Android Auto. Please follow operation: Open Google Browser and type "AAADAPK" -----Download APK-----Open "AAAD" ----download "Carstream" -----Open "Carstream" go to setting and choose Enable desktop mode"after you can enjoy video from YouTube by wireless android auto.
